Article of the Week

Parent Engagement is an ongoing process that increases active participation, communication, and collaboration between parents, schools, and communities with the goal of educating the whole child to ensure student achievement and success.

How will Shiloh engage parents this school year?

1. We will create a welcoming school climate.
2. We will provide families information related to child development and creating supportive learning environments.
3. We will establish effective school-to-home and home-to-school communication.
4. We will strengthen parent's knowledge and skills to support and extend their children's learning at home.
5. We will engage families in school planning, leadership and meaningful volunteer opportunities.
6. We will connect students and families to community resources that strengthen and support students' learning and well-being. - gadoe.org
